

More than just Insurance

## BnB SURE

If you run a Bed and Breakfast or a Guesthouse business, you will know that you are in one of the most exciting and rapidly growing industries in the country.

BnB SURE, the only insurance policy developed in conjunction with the industry, comes out of the knowledge that a conventional personal insurance policy is not adequate for Bed and Breakfast and Guesthouse owners. This is why it is a combination of a business and a personal insurance policy. You can shape it perfectly to meet your individual requirements and your pocket.
