

We help you stay airborne

Aviation Insurance

Zurich Aviation is an aviation policy geared to meet all the insurance needs of the owners of aircraft. It covers small aircraft, vintage or new, piston or jet-engines, and includes microlights and hot air balloons.

The cover available is detailed below but we are able to tailor your policy to meet your specific needs and thus ensure you have complete peace of mind from take-off to landing.

Zurich Aviation covers the following classes:

[Aircraft hull all risks](#)

You are indemnified against accidental loss or damage to the aircraft. Here the focus is on standard type fixed wing aircraft classified as General Aviation.

[Legal liabilities](#)

All liabilities to passengers as well as third parties are covered. This includes everything arising from ownership and operation of the aircraft.

[Aircraft hull war risks](#)

Our customers are covered for loss or damage to the aircraft emanating from war, riots, strikes, malicious damage and confiscation by governments of non-registry.

[Microlights](#)

Your craft is covered while it is in flight, on the ground or in transit.

[Hull deductible insurance](#)

The deductible applicable to the Hull All Risks Policy may be reduced by means of arranging separate cover.

[Repairer's liability insurance](#)

Our customers are covered for legal liability which may arise from activities emanating from your business premises. You are covered if you have an aircraft in your care, custody or control, but which is not owned by you. Any consequential loss arising from defective workmanship will be covered as well.

[Hot air balloons](#)

Zurich Aviation insures the balloon and covers the insured's liability to third parties and passengers arising from the ownership and operation of the balloon.

[Personal accident insurance](#)

Zurich Aviation provides cover for pilots and passengers whilst on board the aircraft.

Your policy

Our aviation underwriters have more than 25 years combined experience in aviation underwriting. We understand your industry and, regardless of the type of flying machine Zurich Aviation can be shaped to insure it.

In view of the many variables we suggest you speak to us in order to ensure that the details of your policy meet your specific needs.

About Zurich in South Africa

Zurich in South Africa is a short-term insurance company headquartered in Johannesburg and listed on the Johannesburg Stock Exchange. Founded in 1965, it offers insurance products and services that respond to the needs of individual, commercial and corporate customers. It has a network of 11 sales areas and a series of service outlets across the country, and employs approximately 1,000 people. In addition, it has subsidiaries locally as well as in Botswana and Zimbabwe. Zurich in South Africa is a member of the Zurich Financial Services Group.

Zurich is a Fortune 100 company and insures more than half of the Fortune 100 companies. Zurich aims to become the leading global insurance group in the general and life insurance markets by evaluating change and helping customers manage change in their lives and their businesses.
